SHUBHPATRA

Website Development — Scope of Work

Project Fee: ₹18,000

1. Website Development

The ₹18,000 project includes development and deployment of the SHUBHPATRA wedding invitation website with:

- Premium responsive website design
- Mobile, tablet and desktop compatibility
- Homepage
- About Us section
- Digital Invitations catalogue
- Stationery catalogue
- Physical Cards catalogue
- Video Invitations section
- Product/design detail view
- Search functionality
- Category and subcategory navigation
- FAQ section
- Enquiry / Contact section
- WhatsApp enquiry functionality
- Client enquiry form
- Basic website SEO/meta setup
- Website deployment and configuration

2. **Catalogue s Designs**

The website will initially contain **sample/placeholder catalogue designs** so that the complete website structure and catalogue experience can be demonstrated.

The catalogue will be organized into relevant categories and subcategories.

The website structure will allow designs to be added, removed or replaced later.

3. **Client's Final Designs**

The client may provide the **final invitation/product designs after the initial website development**, including designs provided approximately **15-20 days after website completion**.

The provided designs can be added/replaced in the existing catalogue according to the website's existing category structure.

The client should provide the designs in suitable digital formats such as:

- JPG
- PNG
- WebP
- MP4 for videos

Final design replacement/addition will use the existing catalogue structure and layout.

Note: Major changes to the website structure, new features, or redesigns outside the agreed scope may be quoted separately.

4. Domain C Hosting

Domain: Paid separately by the client.

The client will purchase and own the domain.

Hosting: The website can be deployed using a free hosting platform such as Netlify/Cloudflare Pages, subject to the platform's current limits and availability.

Any future paid hosting, email service, premium plugins/services, or third-party services will be paid separately by the client.

5. Enquiry System

The website will include an enquiry form where customers can submit their:

- Name
- Email
- Phone/WhatsApp
- Wedding/event information
- Invitation requirements
- Message

Enquiries will be configured to reach the client's designated business email, subject to the selected email/form service and its configuration.

6. Future Updates

The website is designed so that catalogue designs can be updated as the business grows.

Included: Adding/replacing the client's supplied designs within the existing catalogue structure as agreed.

Separate quotation may apply to:

- New website sections

- Major redesigns
- New functionality
- New integrations
- Backend/database development
- Paid third-party services
- Large-scale catalogue restructuring

7. **Project Cost**

Total Website Development: ₹18,000

Domain: Paid separately by client

Paid third-party services: Paid separately if required
